

Get online

with StudentCom

In addition to your broadband, StudentCom offer a wide range of supplementary services for all your academic and entertainment needs within your student accommodation!

Below is a small taste of the services available to you.

Broadband

StudentCom offer a simple plug 'n' play service, so as soon as you move into your accommodation, you will very quickly be able to register for the service and gain access to the Internet.

As part of your rent for 2015/16, you will receive an uncapped **40Mbps** Internet service both wired and Wi-Fi. This speed will be increased on a yearly basis which means for academic year 2016/17 the inclusive speed will be **50Mbps**.

For those of you who are after an even faster service today, an upgrade option of **60Mbps** is available for **£85.00**, or an even faster **100Mbps** for **£150.00** for the full academic year.

Wi-Fi

Wi-Fi Internet access for up to 5 devices per student will be available throughout the building including in your rooms and communal areas.

Gaming

StudentCom provide a selection of game servers for PC games for exclusive use by its broadband subscribers. These are all **FREE** of charge, easy to access and include the following popular games: Minecraft, Counter Strike, Left4dead & Team Fortress.

Games will occasionally be refreshed based on usage and interest in other games. Detailed step-by-step instructions on how to access these games is available as a guide in the StudentCom Help & Support.
